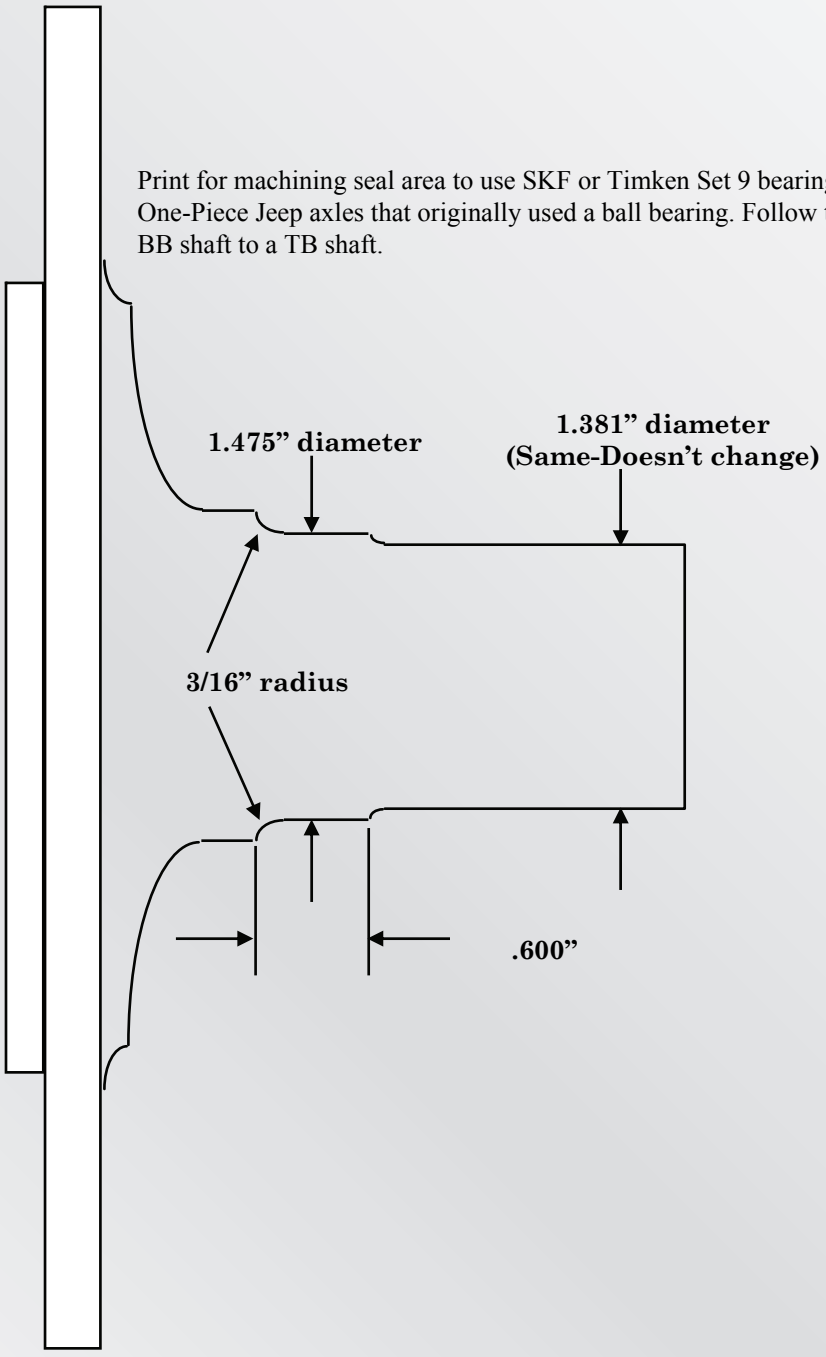
Machining Instructions for changing Moser Jeep Axles from Ball Bearings to Tapered Bearings

Print for machining seal area to use SKF or Timken Set 9 bearings on Moser Engineering One-Piece Jeep axles that originally used a ball bearing. Follow these dimensions when altering BB shaft to a TB shaft.



Rev. IN19-33

Moser Engineering Inc. disclaims warranty of any kind, including but not limited to an expressed or implied warranty of quality or fitness for any purpose. No warranty of any kind, expressed or implied, as to the quality or suitability of this product for any use, is hereby made by Moser Engineering. The buyer assumes all risk and liability resulting from the use of the goods. Seller neither assumes nor authorizes any person to assume for seller any other liability in connection with the sale or use of the goods sold, and there are no oral agreements or warranties collateral to or effecting the disclaimer or warranty. Included in said disclaimer is service of or remanufacturing performed by Moser Engineering on any product.
